I wish to enter the awards : I am entering a portfolio of my journalism and media work from the past year, including written articles, photography, video and social media content across youth, and offshore sailing. This includes work for the Scaramouche Sailing Trust, Practical Boat Owner and Yachts & Yachting, alongside content and experience from The Magenta Project, The Ocean Race Female Leadership Development Programme, and the Griffin Offshore Sailing Programme. I am entering because this work represents how my approach to journalism has developed over the past year. I have moved from documenting my own experiences as a sailor to looking beyond the racing to find and tell the stories of the people, communities and organisations behind it.

Please add any additional supporting information : My supporting links include published articles, photography, Instagram reels, videos and vlogs. Together, they show the range of formats I have worked across and my progression from creating content about my own sailing to developing a broader interest in journalism and storytelling within the sport. I was a finalist for the YJA Young Journalist of the Year Award in 2025, and this portfolio represents what I have developed since then.
